

Example title

Michael O'Keefe

15 July 2021

Introduction

- First line this is some text
 - Second line this is some text
 - Third line this is some text

Second Slide

- Sometimes you will have a series of slides with figures on that you want to flick between
- Adding text one one slide, but not the other, will shift the figure placement of this slide but not the others
 - Meaning you can't nicely flick between slides
- To set the alignment to the top of the slide, simply add `{.t}` to the slide title

Third Slide

- 1 This is
- 2 How you
- 3 Do a list!

This slide has figures

Fourth slide

- This is my first column
- This is my first column
- This is my second column
- This is my second column
